FNT NEXTGEN

QUOTATION IN RESPONSE TO REQUEST FOR QUOTATION DXCC1076308527EC

Supply of Stainless Steel Strapping (SAP 0400902) to Eskom Holdings SOC Ltd

DRAFT FOR COMPLETION: items highlighted in yellow must be completed with FNT NextGen's own information before submission. Nothing in yellow has been assumed on the company's behalf. Delete this notice before uploading.

1. Quotation particulars (RFQ page 3)

To	Eskom Holdings SOC Ltd (Mthatha & King William's Town delivery points)
Attention	Ongezwa Mapekula | mapekuo@eskom.co.za | Tel 043 704 1095
RFQ number	DXCC1076308527EC
Date of quotation	29 October 2026 (RFQ date 21 Oct 2026; closing 29 Oct 2026 at 18:00 SAST)
Tenderer	FNT NextGen [confirm full registered name, e.g. (Pty) Ltd]
Company registration number	[ENTER]
National Treasury CSD number	[ENTER MAAA number]
SARS eFiling / tax PIN	[ENTER]
Eskom vendor number (if registered)	[ENTER or state 'Not registered']
B-BBEE status level	[ENTER level 1-8 / Non-compliant] (certificate or sworn affidavit attached)
Contact person / Tel / E-mail	[ENTER name] | [ENTER tel] | [ENTER e-mail]
Validity period of offer	[90 days from closing date - confirm]

2. Pricing schedule (RFQ page 10)

All prices are in South African Rand. Unit price of R1 799.00 per roll is taken as EXCLUDING VAT [confirm; if R1 799 is VAT-inclusive the figures change].

Item	Stock no.	Description	Qty	UOM	Unit price (excl. VAT)	Total price (excl. VAT)	VAT
1	0400902	STRAP, TIE DOWN: WD 12 MM X THK 0.75 MM, SS304, 30 m roll, Bandit-tool fastening, ultimate tensile strength 5.5 kN (Eskom D-DT-3131 Rev 7)	4 800	EA	R 1 799.00	R 8 635 200.00	R 1 295 280.00
		Delivery charges (Mthatha & King William's Town)				Included in unit price [confirm]	
		TOTAL PRICE (excluding VAT)				R 8 635 200.00	
		VAT @ 15%				R 1 295 280.00	

		TOTAL PRICE (including VAT)				R 9 930 480.00	

Note: Eskom's General Conditions of Purchase (cl. 4) treat delivery as included in the price unless the tender states otherwise.

3. Commercial terms (RFQ page 13)

CIDB registration / grade	Not applicable (supply of goods)
Warranty period	12 months from acceptance, per Eskom GCP clause 11 [confirm or state longer]
Prices fixed?	[Yes - firm for the validity period; confirm exchange-rate exposure]
Eskom General Conditions of Purchase accepted?	Yes. No exceptions are taken to Eskom's General Conditions of Purchase or Standard Conditions of Tender. [confirm]
Delivery duration	12 to 16 weeks from order, subject to availability (item is sourced internationally). RFQ asks for ASAP, so this is a stated delivery-time departure.
Delivery offered / quoted?	[Yes / No] - delivery to Mthatha and King William's Town
Discount (trade / settlement)	[None / ENTER %]
Registered on Eskom vendor database?	[Yes / No - reason if not]
Integrity Pact Declaration signed and attached?	Yes (Annexure D attached)
Company registration number / B-BBEE level	[ENTER] / [ENTER]

4. Technical compliance: Table 1 of the Technical Evaluation Criteria

Eskom requires 100% compliance and no blanks, 'TBA' or similar entries. Every yellow cell must be filled with the actual manufacturer's data before submission.

Parameter (D3131 / D-DT-3131)	Eskom requirement	Tenderer offer	Evidence to attach
Manufacturer	To be stated	[ENTER OEM name - not in the information supplied]	Manufacturer letter / datasheet
Country of origin	To be stated	[ENTER - imported; country not supplied]	Datasheet / label
Manufacturer's product code	To be stated (OEM code)	RSU12F304	Datasheet
Manufacturer's drawing	Yes	Yes - attached	Authorised, dated drawing, revision visible
Width	12 mm	12.7 mm (1/2 inch nominal) - see Note A	Drawing / datasheet
Thickness	0.75 mm	0.75 mm [confirm]	Drawing / datasheet
Material	Stainless steel, Grade 304 (ASTM A240)	Stainless steel Grade 304 (SS 304) [confirm with mill report]	Metallurgical (mill) report - mandatory
Ultimate tensile strength	5.5 kN	[ENTER tested kN, must be >= 5.5]	Tensile test report - mandatory
Fastening method	Bandit tool, buckle	Bandit tool with buckle [confirm compatible buckle]	Datasheet
Indelible marking: stamped, no paint	State mark and compliance	Manufacturer's trademark and part no. stamped on strap [describe mark]	Photo of sample
Roll length	30 m	30 m rolls (30M ROLL)	Datasheet / sample

Note A: the offered product (code RSU12F304) is 12.7 mm x 0.75 mm. The Eskom spec sheet D-DT-3131 Rev 7 and the line item say 12 mm, but the RFQ's own detailed specification (page 11) calls for 12.7 mm x 0.75 mm. The 12.7 mm width is therefore declared on the Deviation Schedule so the offer cannot be treated as concealing a difference.

Eskom requires 100% technical compliance, so there is a risk this is scored as non-compliant despite the RFQ's own wording.

5. Deviation Schedule (EC19SIF-005 Rev 1) - mandatory, disqualifiable

Complete and sign Eskom's own form (it is in the Returnables pack, page 8). Pre-filled entries:

Product description	STRAP, TIE DOWN: WD 12 MM X THK 0.75 MM, SS304, 30 m roll
Eskom SAP number	0400902
Product code (item code)	RSU12F304
Latest specification applicable	Eskom D-DT-3131, Rev 7
Deviation exists?	YES. Clause: D3131 width 12 mm. Proposed: 12.7 mm (1/2 inch nominal) x 0.75 mm. Reason: standard commercial width; the RFQ detailed specification (p.11) itself states 12.7 mm.
Product manufacturer	[ENTER]
Supplier to Eskom	FNT NextGen
Supplier representative / signature / date	[ENTER name] / [sign] / 29 October 2026

6. Sample

One sample of the tendered product (one 30 m roll, or a cut length if Eskom agrees) is required with the submission. Mark it with RFQ number DXCC1076308527EC, SAP 0400902, the tenderer's name and the OEM product code. [Confirm where/how the sample is being delivered, since the portal is electronic only.]

7. Local production and content (SBD 6.2)

The returnables pack includes National Treasury Designated Sectors Circular 1 of 2020/21 (100% local content for powerline hardware). Its Annexure A lists 'Strap tie' among fabricated powerline hardware. The RFQ states SBD 6.2 and Annexures C, D, E apply only where designated materials are included, and lists them as due before contract award. The offered strap is imported, so it cannot meet a 100% local-content threshold. Per the Circular (para 4.1.1) a dtic authorisation letter should have reached the dtic at least 5 working days before closing; closing is today. [Decide how to handle: ask Eskom in writing whether SBD 6.2 applies to this item, and complete CPA(IG) Annexure F.]

8. Tenderer signatory (RFQ page 14)

Name of tenderer	FNT NextGen [full registered name]
Full names of authorised signatory	[ENTER]
Telephone number	[ENTER]
Fax number and e-mail address	[ENTER]
Signature	
Designation and capacity	[ENTER]
Date	29 October 2026

The tenderer confirms that it has read and understands the Integrity Declaration Pact and undertakes to abide by its provisions in any dealings it may have with Eskom, and that the signed Integrity Declaration Form and SBD 4 have been completed, signed and submitted. The tenderer will comply with Eskom's Life Saving Rules and the environmental requirements listed on page 14 of the RFQ while on Eskom sites.

9. Submission checklist (CSD portal only; closing 29 Oct 2026, 18:00 SAST)

Do not email the buyer. Late or off-portal submissions are not evaluated.

#	Document	Consequence if missing	Done
1	Completed pricing schedule (section 2 / RFQ p.10) - line-item price	DISQUALIFIED	[ ]
2	Signed Deviation Schedule EC19SIF-005 (with OEM product code)	DISQUALIFIED	[ ]
3	CPA (local goods) Annexure E, or CPA(IG) Annexure F for imported goods	DISQUALIFIED	[ ]
4	Technical Table 1 fully completed (section 4), no blanks	Fails technical (100% needed)	[ ]
5	Manufacturer's drawing: authorised, dated, revision visible	Fails technical	[ ]
6	Metallurgical report (SS304) and tensile test report (>= 5.5 kN)	Fails technical	[ ]
7	One sample of the product	Fails technical	[ ]
8	Annexure A Authorisation Form (certificate for company/CC)	Request within 5 working days, else DQ	[ ]
9	Annexure D Integrity Declaration Form (signed)	Request within 5 working days, else DQ	[ ]
10	SBD 4 Declaration of Interest (Annexure J)	Request within 5 working days, else DQ	[ ]
11	SBD 6.1 Preference Points Claim Form (Annexure I)	0 B-BBEE points if missing	[ ]
12	Proof of CSD registration / CSD report	Mandatory contractual requirement	[ ]
13	SBD 1 Invitation to Bid (Annexure H)	Needed before award	[ ]
14	B-BBEE certificate or sworn affidavit	Needed before award; else 0 of 20 points	[ ]
15	SBD 6.2 + Annex C/D/E (if strap is a designated item)	Needed before award (imported: likely not achievable)	[ ]
16	SARS PIN / tax clearance, Employment Equity proof	Needed before award	[ ]

10. Pricing strategy notes (internal - remove before upload)

- Evaluation is 80/20: Ps = 80 x (1 - (Pt - Pmin)/Pmin) for price, plus up to 20 points for B-BBEE (L1 20, L2 18, L3 14, L4 12, L5 8, L6 6, L7 4, L8 2, non-compliant 0). Lowest acceptable price scores 80.
- Each 1% above the lowest acceptable bidder costs 0.8 points; each B-BBEE level is worth 2-6 points, so level matters as much as a few percent of price.
- The price must be backed by a firm OEM/supplier quote for 4 800 rolls, landed at Mthatha and King William's Town. Eskom reserves the right to negotiate if prices are not market-related.
- Cost R794.00 per roll excl. VAT vs quoted R1 799.00 = R1 005.00 gross profit per roll (126% on cost; 55.9% of price). Cost outlay for 4 800 rolls is R3 811 200 excl. VAT, with 12-16 weeks lead time and foreign-currency exposure. The R1M RFQ template suggests Eskom budgeted far lower, so price and lead time are the main risk to scoring.

- Eskom pays within 30 days of a correct tax invoice and must quote its VAT number 4740101508 on invoices.
